

# Discount (Method 2)

10/3

\* Find the % you are paying  
(Subtract discount from 100%)

~ All you do is Multiply the new %  
by the Original Price.

Oct 4-12:21 PM

## Example

Sweater: \$15.95

Discount: 35% → .35

Still paying:

[100 - 35]

65%

### Method 1

$$\begin{array}{r} 15.95 \\ \times .35 \\ \hline 5.58 \end{array}$$

$$\begin{array}{r} 15.95 \\ - 5.58 \\ \hline 10.37 \end{array}$$

$$\begin{array}{r} 10.37 \\ \times .05 \\ \hline 0.52 \end{array}$$

$$\begin{array}{r} 0.52 \\ + 10.37 \\ \hline 10.89 \end{array}$$

$$\boxed{\$10.89}$$

### Method 2

$$15.95 \times .65$$

$$\boxed{\$10.37}$$

5% tax

$$10.37 \times 1.05$$

$$\$10.89$$
